

THE STATE OF UTAH
OFFICE OF STATE ENGINEER
SALT LAKE CITY

GEO. M. BACON
STATE ENGINEER

April 9, 1928.

Mr. F. J. Weber,
Hanksville, Utah.

Dear Sir:

RE: BOWL CREEK DIST.

The matter of appointment of a water commissioner for Bowl Creek is up again and I wish you would please let me know if you will accept the appointment for the coming season, if made. Also please be sure and advise me what you would consider proper as compensation for the season. You may be familiar enough with local conditions so that you would consider a lump sum and this would be far more convenient for assessment purposes than an indefinite amount.

Yours very truly,

G. M. Bacon
State Engineer.

GMB/E

Hanksville, April 17th 1928

To the State Engineer,
S. L. C. Ut.

Dear Sir: In reply to the above, will say, that I will accept the appointment.

In regards to compensation for the season, it is rather difficult to derive at a fixed sum, owing to the personal feelings between the parties herein concerned, not knowing how many trips I may have to make to adjust their difficulties, but think that \$100.00 should be about right.

If you deem it satisfactory, kindly send me formulas in regards to veer and measurements; also the amount of water, each is entitled to as per their filings on record, and oblige

Yours respectfully *F. J. Weber*
